HAND-VOICED TONE, ALWAYS WITHIN ARM'S REACH

VINTAGE · COUNTRY BOY · SIGNATURE

INTRODUCING

Touchstone Series

A collection of hand-voiced guitars designed by Dana Bourgeois.

Over the last 50 years Dana Bourgeois has refined the old-world technique of hand-voicing and is now recognized worldwide as a foremost authority.

These guitars feature old-growth Alaskan Sitka Spruce tops and Adirondack Spruce braces harvested from deep in our own backyard, selected and hand-voiced in Lewiston, Maine by Dana Bourgeois and his team. Drawing on Dana's near half-century of lutherie experience, the Touchstone Series is designed to deliver legendary Bourgeois tone and build quality to a wider range of players than ever before.

The magic of the Touchstone Series comes from Dana's renown system of hand-voicing, bringing the sound of Bourgeois to each of his guitars.

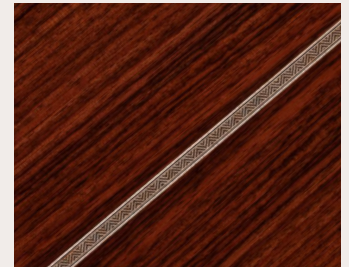

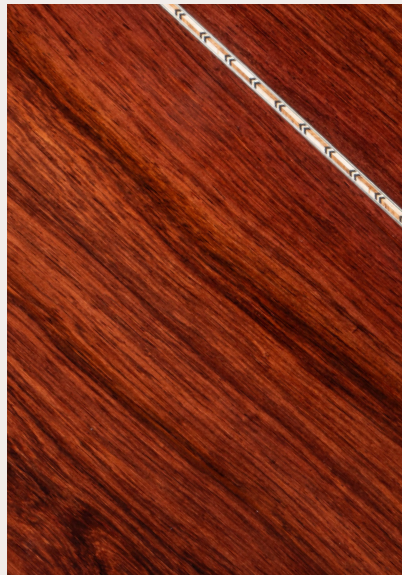

Rich. Balanced. Responsive.

#SOUNDOFBOURGEOIS

The Touchstone Series showcases the fine materials and tireless attention to detail that has become synonymous with Bourgeois Guitars. Meticulously handcrafted with highly desired tonewoods—such as Indian Rosewood, Madagascar Rosewood, and Mahogany—Touchstone guitars feature a carefully selected old-growth Alaskan Sitka Spruce top to create a balanced instrument with subtle elegance. The Touchstone Signature builds upon the line with a torrefied Alaskan Sitka spruce top and is completely bound in Ziricote, a stunning figured wood that pairs with Dana’s distinctive tri-color herringbone and pearl inlays. These details, carefully honed over decades of refinement, culminate to create not just a guitar, but the very essence of the Bourgeois sound—dynamic, resonant, and unmistakably exquisite.
